DIE-CUTTING & CONVERTING SERVICES FOR

ADHESIVE BONDING TAPES

BUILDING ON OUR LEGACY OF ATTACHMENT INNOVATION

With over two decades of experience, HALCO® has been a trusted partner in providing innovative closure and attachment solutions to manufacturers across North America. Our expansion into die-cutting and converting services for high-performance adhesive bonding tapes further strengthens our commitment to delivering innovative solutions for customers.

CUSTOM WIDTH ROLLS

DIE CUTTING

TAPE SPOOLING

LASER CUTTING

ADHESIVE LAMINATION

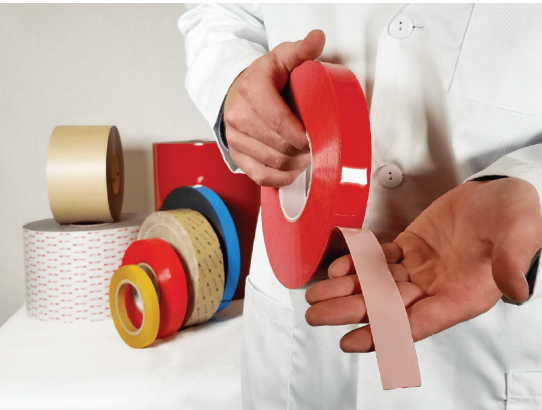

ADVANCED CONVERTING CAPABILITIES

We specialize in rapid prototyping and die-cutting of hook-and-loop and adhesive parts. We now extend this expertise to convert attachment parts and components based on adhesive bonding tapes.

COMPREHENSIVE ADHESIVE TAPE SOLUTIONS

We offer converting services for a wide range of adhesive bonding technologies:

High Bond Tapes

For structural bonding

Specialty Tapes

Specialty adhesives including low VOC, and flame retardant

Acrylic Film & Transfer Tapes

For foam lamination

Thin Bonding Tapes

For low surface energy plastics & graphics attachment

Double-coated Foam Tapes

For gasketing, cushioning & general attachment

Removable Tapes

For temporary assembly

We also offer tapes to assist in temporary holding during sewing operations and high performance tapes to meet demanding engineering challenges (temperature, flame retardance, conductivity) and industry/customer specifications.

CHOOSE HALCO® FOR YOUR CUSTOM CONVERTED ADHESIVE TAPE SOLUTIONS

Leverage our speed, responsiveness, and market expertise to fulfill your adhesive tape attachment requirements. Complimentary evaluation samples are available.
