COMMERCIAL AEROSPACE INTERIORS

Hook-and-loop fasteners
suitable for OEM, line
fit, retrofit and MRO
applications

- Seat Assembly
- Wire and Cable Management
- Interior Panel Attachment
- Carpet Attachment

SAY GOODBYE TO DOWNTIME AND SUPPLY CHAIN UNCERTAINTY

Our hook and loop solutions are designed to meet the strict performance and reliability requirements of aerospace interiors. With a cost advantage over traditional suppliers, larger in-stock inventories, and fast global delivery, we help minimize supply chain risk while keeping programs on schedule.

From hard-to-find widths and colors to responsive, knowledgeable customer support, we make sourcing simple and dependable. Trusted by world-leading airlines and MROs we deliver consistency you can rely on—flight after flight.

AEROSPACE FASTENING SOLUTIONS

SEW-ON FR HOOK AND LOOP

Premium FR nylon fastener for aerospace applications. Exhibits high peel & shear strength and excellent life cycle. Meets FAA & FMV specifications. Available in a variety of widths and colors.

ADHESIVE FR HOOK AND LOOP

Premium nylon fastener with an aggressive FR Adhesive that bonds well to nearly all substrates. Suitable for demanding applications and wide temperature ranges. Meets FAR and FMV specifications.

FR BACK-TO-BACK HOOK AND LOOP

Reusable FR strap used for bundling wires and cable management. Eliminates waste caused by single use cable ties.

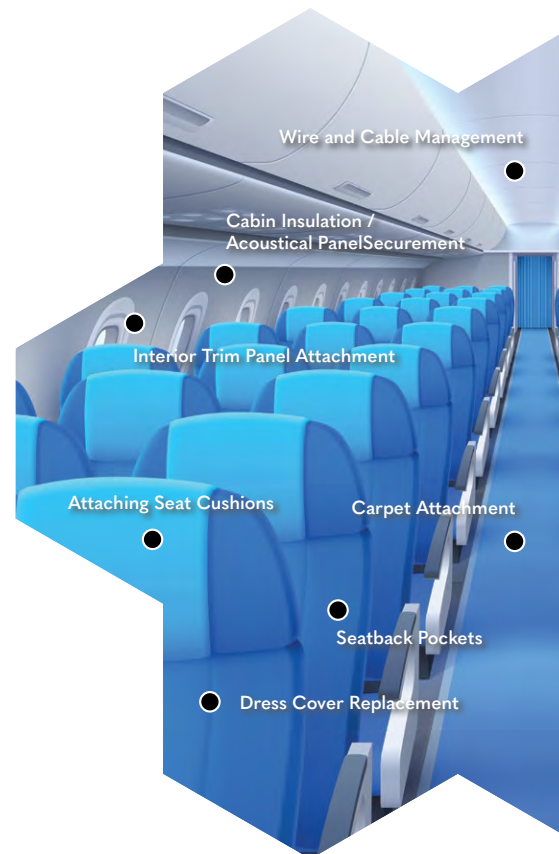

HEAT RESISTANT HOOK AND LOOP

PPS sew-on fastener capable of withstanding high temperatures. Also available with FR adhesive. Ideal for aircraft cabin insulation.

HIGH TEMP HOOK AND LOOP

FR sew-on stainless-steel & Aramid fastener designed to withstand high-temperatures over an extended period. Suitable in applications requiring corrosion resistance.
