- CALIFORNIA PROPOSITION 65
- AND MORE...

AUTOMOTIVE FASTENING SOLUTIONS

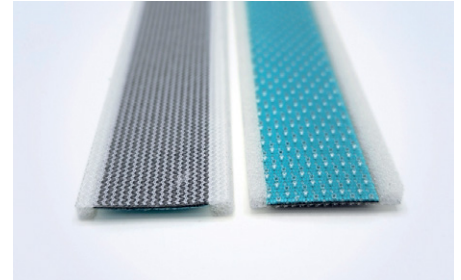

AUTO LOOSE LOOP

Loose auto loop is suitable for automotive seat trim applications. available in 31mm – 41mm widths and can be packaged on either cross wound spools or in loose pack.

MOLDED HOOK

Molded hook provides a low-profile fastening solution that engages with a variety of woven, knit, and non-woven materials. This fastener exhibits a strong shear strength.

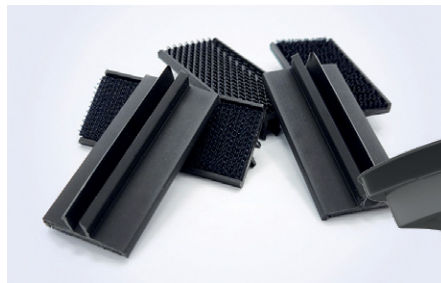

MOLD-IN MUSHROOM HOOK

Mold-In mushroom hook fasteners with shield-less technology design for different seat designs. Both straight and curved versions are available to support your design flexibility.

FELT / FLOCK TAPE

Automotive-grade felt and flock solutions reduce noise, stop squeaks and rattles, protect surfaces, and elevate perceived quality for OEM suppliers demanding performance, durability, compliance, touchpoints.

EXTRUDED TRACK

Automotive Track is a PVC-backed Hook or Loop Fastener with a unique Arrowhead shape profile along the bottom for adhering into carpet & other automotive soft trim surfaces.
