MATERIALS & ADHESION

HALCO® supplies adhesive-backed hook and loop and bonding tapes for display applications requiring easy changeover and dependable hold.

- Rubber PSA hook and loop for indoor graphics
- Adhesive for vinyl, outdoor and long-term use
- Low-profile fasteners for flush-fit panels
- Double-coated PET and acrylic foam tapes
- Removable foam for changeable displays
- 3M™ Dual Lock™ for reclosable rigid panels

DISPLAY APPLICATIONS

Fastening solutions for graphic fabricators, display manufacturers and exhibit builders, from changeable graphics to permanent sign mounting.

- Panel displays and exhibit structures
- Pop-up displays, banners and detachable graphics
- Retail point-of-purchase displays
- Permanent and architectural signage
- Sporting event and venue graphics
- Promotional kits, sample books and packaging

DISPLAY-READY FASTENING SOLUTIONS

Specialty hook and loop materials, adhesive fasteners and custom-converted components for displays, graphics, signs and exhibits.

ADHESIVE HOOK & LOOP

R4 rubber PSA hook and loop delivers immediate grab for indoor graphics and display structures. A8 acrylic adhesive is available for vinyl, outdoor and long-term installations. Low-profile options sit nearly flush behind graphics.

DOUBLE-SIDED BONDING TAPES

PET film, high-bond acrylic foam, standard foam and removable foam tapes for acrylic panels, permanent signage, dimensional POP and clean graphic changeover. 3M™ VHB™ tapes are also available.

PRODUCTION-READY FORMATS

Coins, mated sets, pre-cut lengths and kiss-cut strips simplify repeatable assembly. Die-cut shapes and custom formats can be labeled, boxed and supplied to customer specifications.

Acrylic adhesive for vinyl & outdoor graphics

Acrylic adhesive resists plasticizer migration and performs better for vinyl contact, UV exposure, higher temperatures and long-term installations. Rubber PSA remains the standard for indoor display graphics.

CUSTOM CONVERTING & FABRICATION

HALCO® converts hook and loop and adhesive tapes into production-ready components tailored to your installation and assembly process.

- Precision slitting from 1/2" to 6"
- Pre-cut lengths, labeled and boxed to specification
- Kiss-cut coins, dots and strips on rolls
- Die-cut shapes in hook, loop, foam and film tape
- Custom rubber or acrylic adhesive lamination
- Dye-to-match Pantone colors
